

ALPINE
MARKETING

Systematized Lead Generation for SMBs

Alpine Marketing replaces manual follow-up with AI Claude Agents, n8n, and GHL CRM automation — driving faster replies, higher close rates, and predictable growth. Target: **LTV/CAC $\geq$ 3:1**

The Core Problem

Most SMBs Lose Leads At Every Stage of The Funnel

Slow Reply Time

Leads contacted after 5 minutes are **21× less likely** to convert. Most businesses reply in hours — or not at all.

No Nurture System

Unbooked leads fall through the cracks with no follow-up sequence, SMS, or reactivation flow.

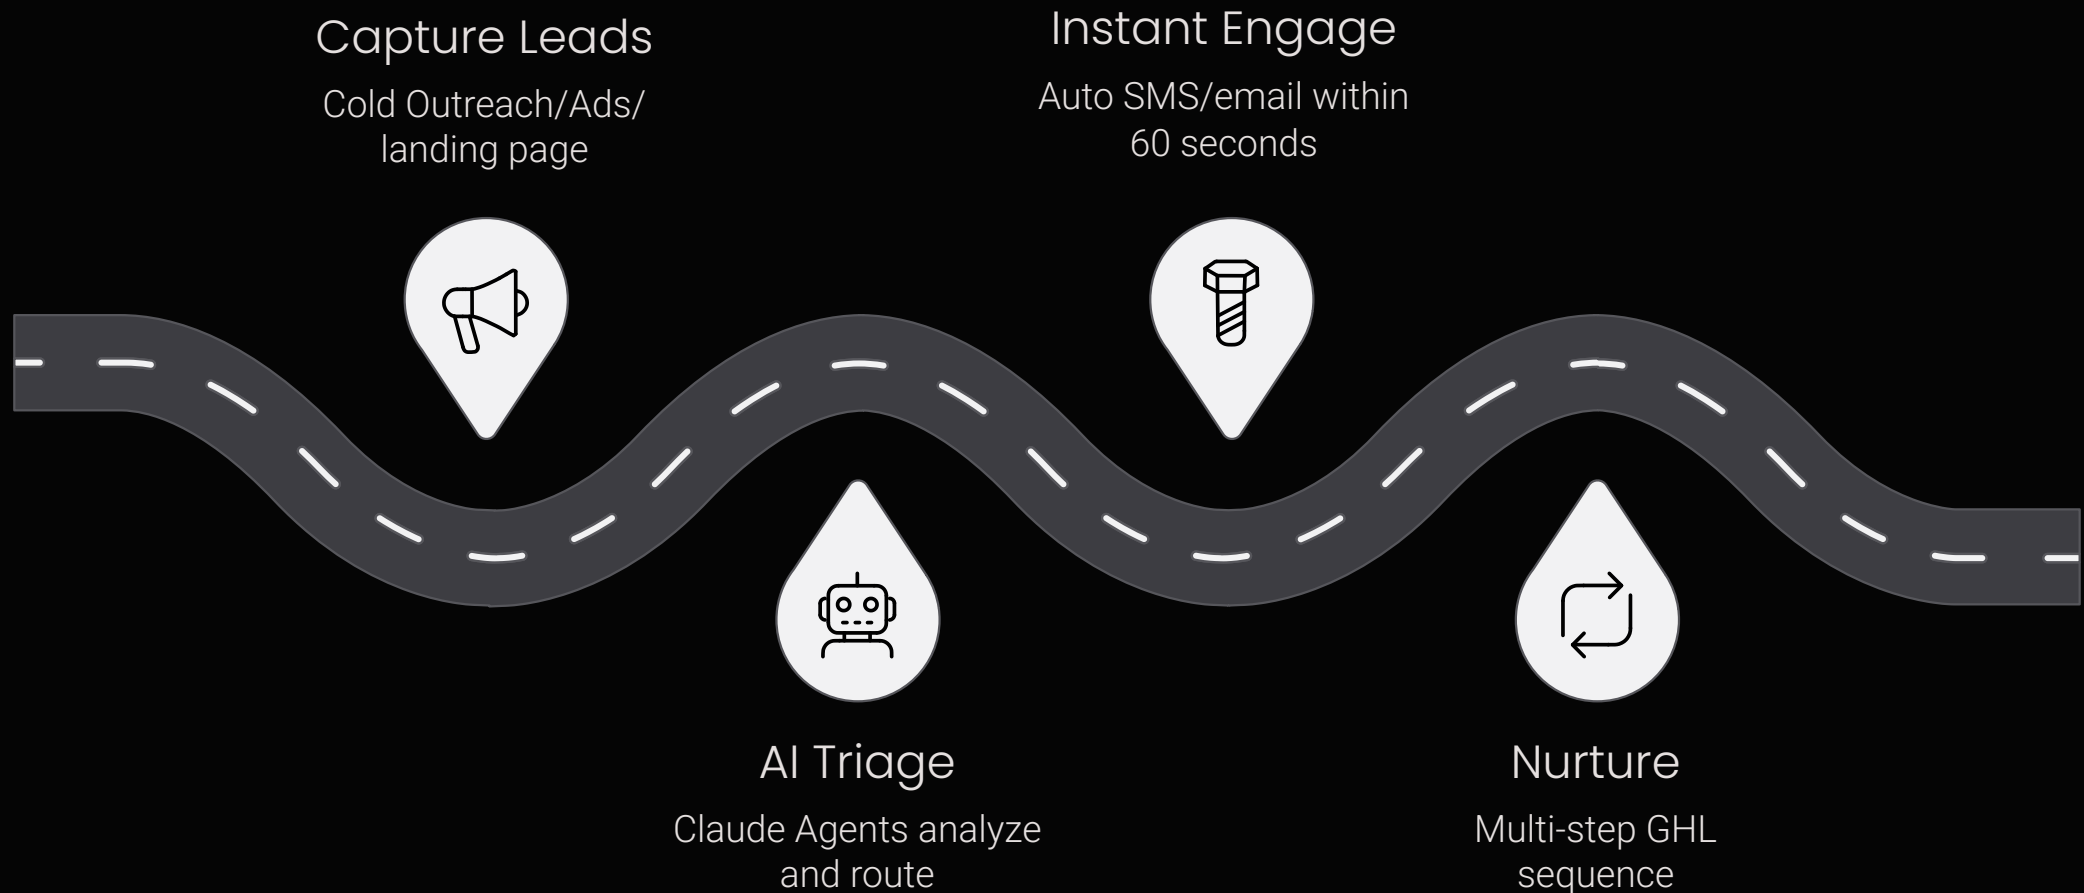

Team Dependency

Growth relies on individual staff effort rather than a repeatable, automated process.

AI-Powered Lead System with Claude Agents

Every new lead enters a structured pipeline powered by AI Claude Agents for intelligent decision-making, n8n for workflow automation, and GHL CRM for pipeline management — no manual handoffs required.

Built on automating speed-to-reply, follow-up sequences, and appointment confirmations so your team focuses only on showing up.

Lead to Appointment: Maximizing Conversion

⚡ < 60 Seconds

CRM workflows instantly analyze and respond to every incoming lead the moment they submit.

🧠 Intelligent Routing

Claude automatically determines the best next action and selects the optimal communication channel.

Multi-Channel

Automated sequences run across SMS, email, and WhatsApp to reach your customers wherever they are.

🔄 Reactivation Campaigns

Dormant prospects re-engaged via GHL — proven to recover 48%+ of lost opportunities.

AI-Powered Automation vs. Manual Sales Team

AI-Powered Automation

- Replies in <60 seconds, 24/7
- Consistent, intelligent lead qualification for every lead
- Scales without adding headcount
- Tracks every conversion metric in real-time
- Reactivates dormant leads automatically
- Reduces sales cycle by 30-40%

Manual Sales Team

- Replies when available — often hours later
- Lead qualification inconsistent and subjective
- Costs scale linearly with volume
- Reporting relies on staff input
- Dormant leads forgotten
- Sales cycle depends on individual performance

The Tech Stack Powering It All

We leverage a sophisticated, unified tech stack to drive growth for SMBs. By integrating intelligent AI agents with robust automation and CRM systems, we eliminate manual bottlenecks and ensure every lead is captured, qualified, and converted with precision.

Claude AI Agents

Intelligent lead qualification, real-time intent analysis, and personalized, human-like response generation at scale.

n8n Workflows

Custom, scalable automation connecting ads, CRM, calendars, and reporting—ensuring a zero-touch, high-efficiency sales cycle.

GoHighLevel CRM

The central command for pipeline management, automated sequences, appointment scheduling, and omni-channel communication (SMS/Email/WhatsApp).

Automation Case Studies

Zurich Dental Clinic

Goal: Grow patient pipeline while keeping CAC under control.

Approach: Meta Ads lead gen + **Claude AI triage** + GHL-driven nurturing & reactivation.

Timeline: 3 months

- 166 Leads Generated
